noelrkadammanja@gmail.com

I am a proactive, confident, and self-organized young man, full of enthusiasm and passion in Information and Communications Technology. I believe in continuous learning and professional growth; hence I am always keen to learn about the ever-changing world of technology. I have worked in software development for more than a year, at top level, focusing on both architectural aspects of system design and analysis and actual realization of software solutions.

EXPERIENCE

SEPTEMBER 2020– PRESENT

SOFTWARE DEVELOPER, NICO TECHNOLOGIES LTD

MY RESPONSIBILITIES IN THIS POSITION INCLUDE;

- Gathering and documenting user and system requirements
- Using Unified Modelling Language to portray the behaviour and structure of system
- Database design, tuning and implementation
- Designing and developing software solutions
- Debugging program code
- Conducting system tests
- Installation of software applications
- Training users, conducting system walkthroughs, and providing system support
- Conducting system reviews
- Documenting software systems (technical and user manual)
- Deploying software solutions to live servers
- Successful design and implementation of software applications using the SDLC

JUNE 2019 – MARCH 2020

STUDENT ASSISTANT, UNIVERSITY OF MALAWI, THE POLYTECHNIC (NOW MUBAS)

This was an academic achievement as I was appointed to be one of the student assistants at the college. My main duty was to assist lecturers in their academic activities such as marking assignments and examinations from junior classes, recording the grades whilst ensuring the confidentiality of the results, and then reporting to the lecturer responsible.
